

Global Innovation from Vietnam

Case Studies

10/1997-10/2019: our 22nd year anniversary

22
years

2,500
engineers

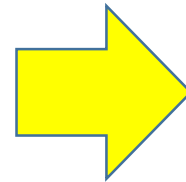

27
countries

learn from successful models

Embracing global innovation best practices from Harvard/MIT, Silicon Valley, Australia, Europe, Israel, etc.

**Innovation is new
in Vietnam**

**Learn from the
successful models**

start with talents

collaborating with universities on training new tech

300

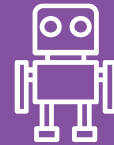

**AI, IoT, Big Data, Analytics,
Blockchain engineers**

IoT/5G

**DATA
SCIENCE**

AI/ML

Blockchain

established data science lab in central Vietnam

TRUNG TÂM SÁNG TẠO - PHẦN MỀM

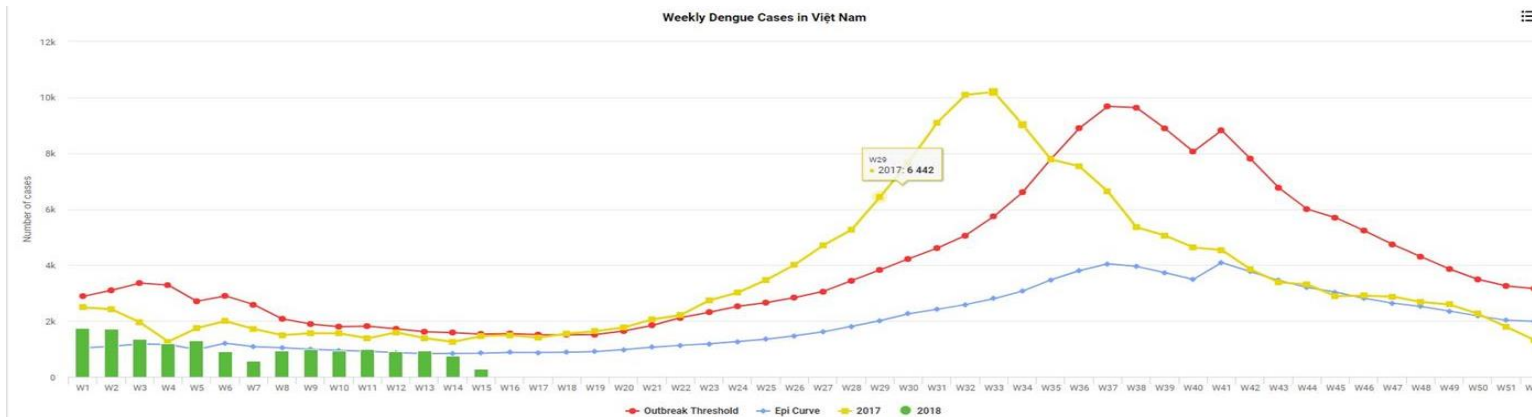

case study: Health Information Systems Programme

Non-profit

Open-source

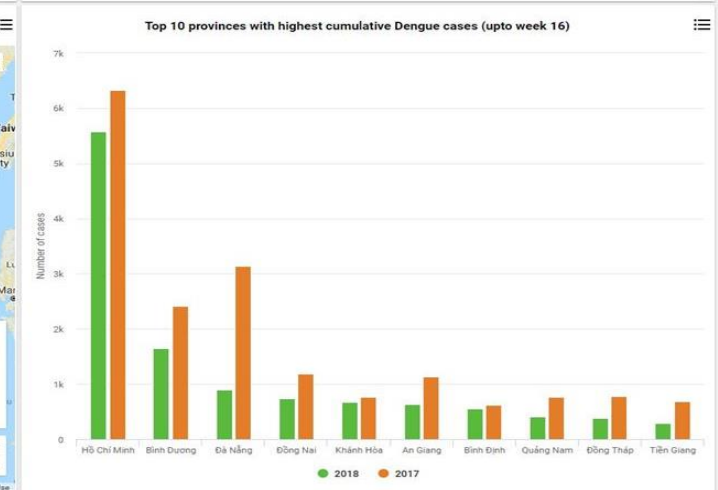

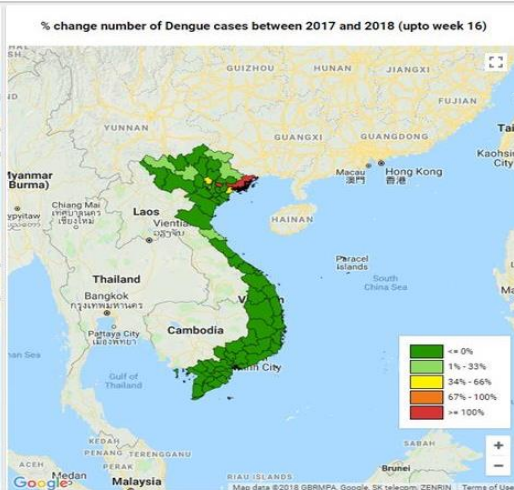

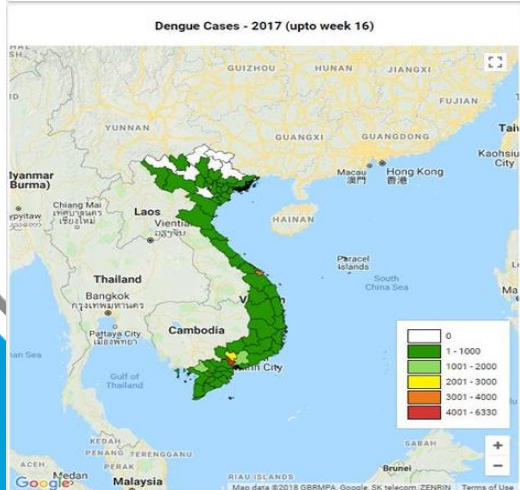

Big Data

Applied in 60 countries

Dengue Cases in the last three weeks

Region	W16	W15	W14	Cases	Deaths
North Region	0	6	13	0	0
South Region	0	208	592	0	0
Central Region	0	62	114	0	1
Central Highland Region	0	10	23	0	0

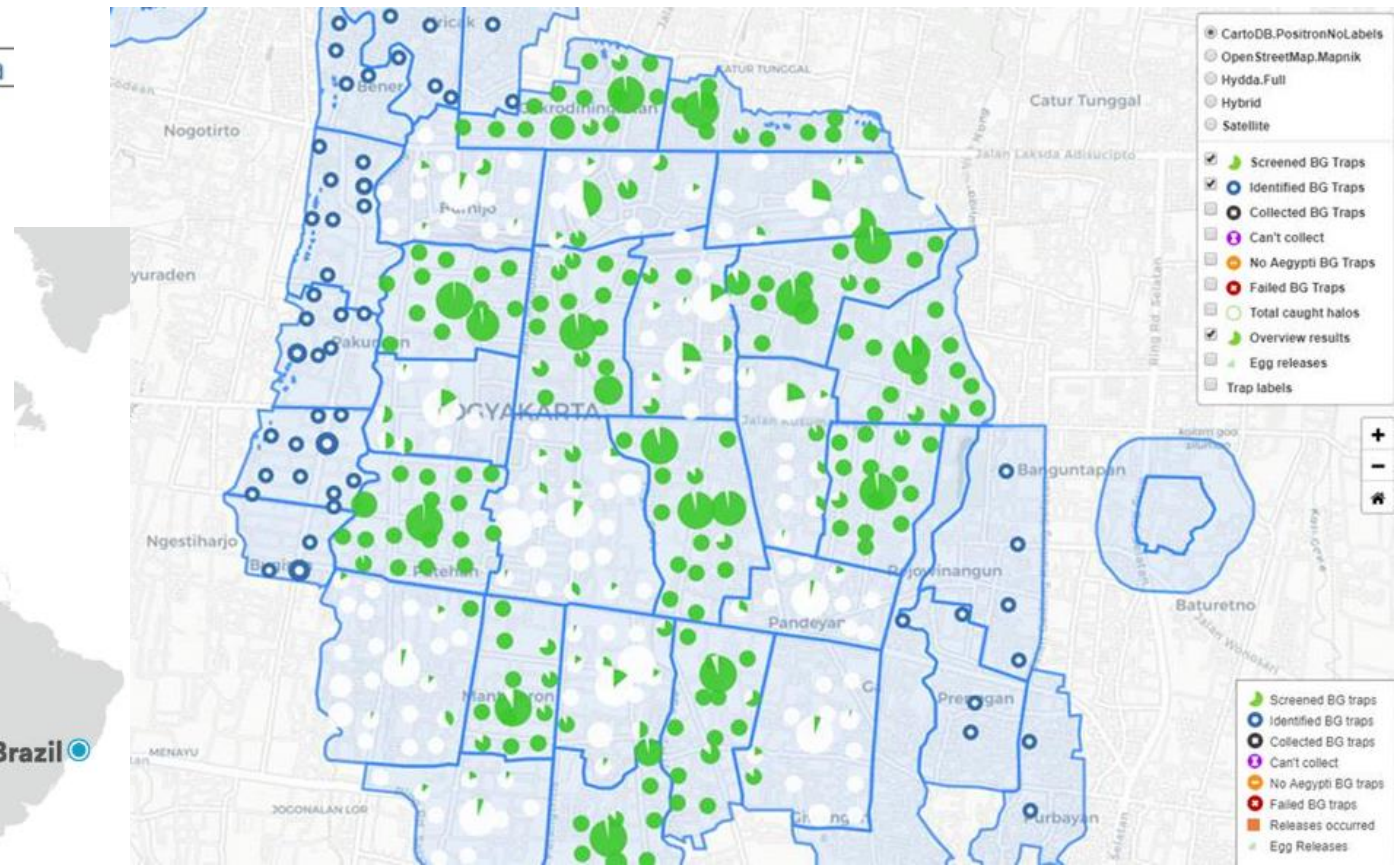

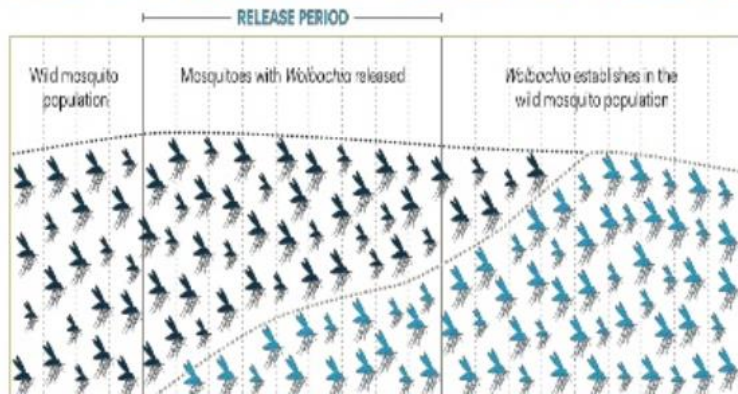

case study: World Mosquito Program

Dengue & Zika prevention

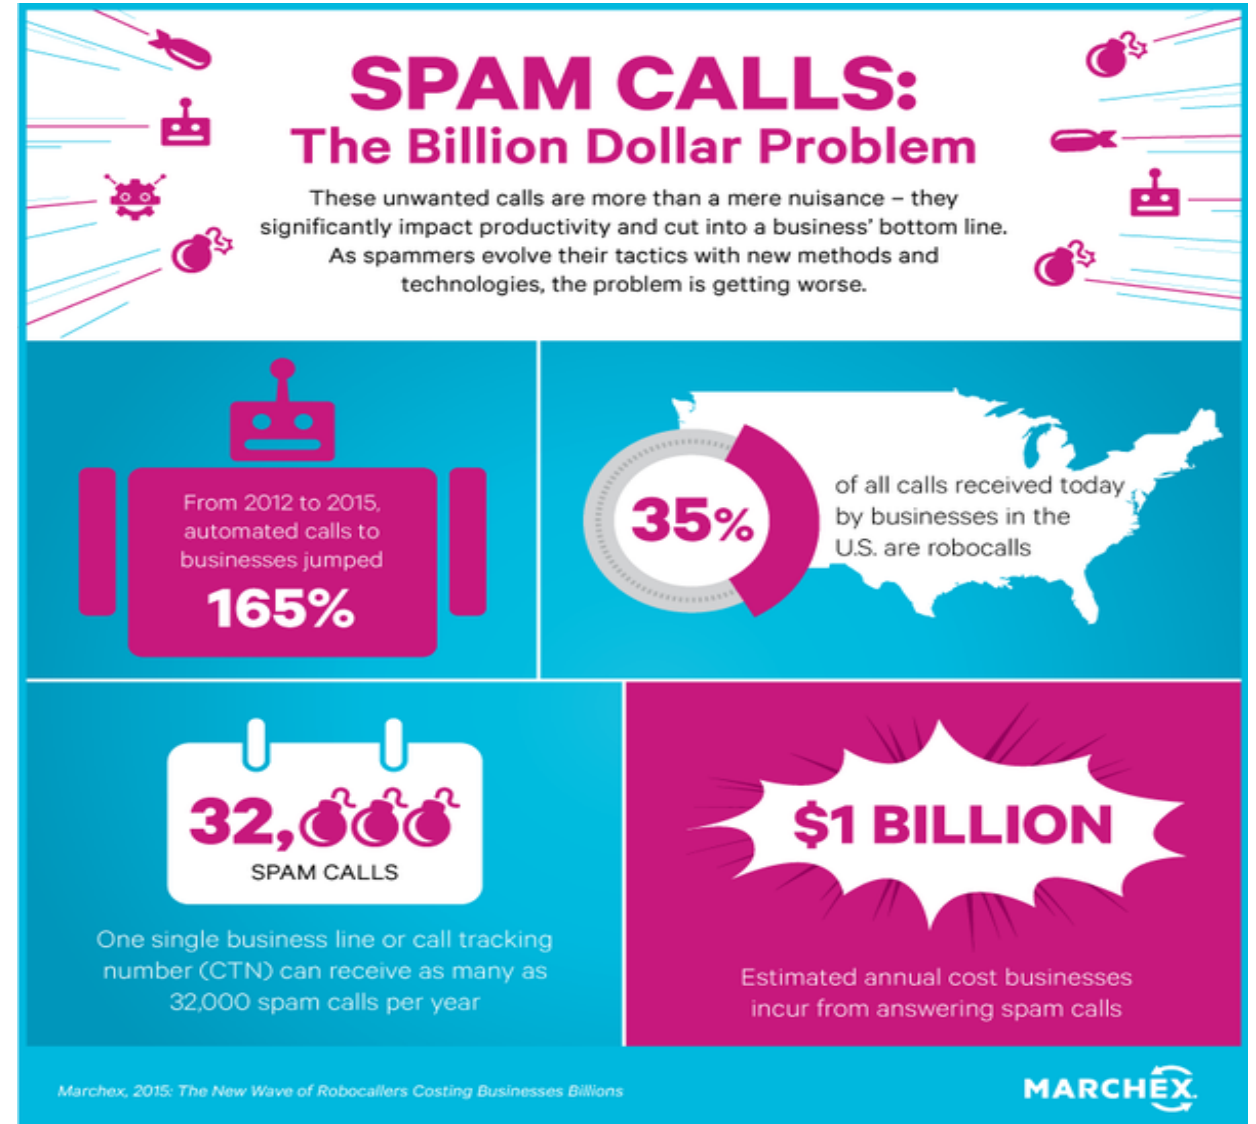

Applied in 12 countries

The World Mosquito Program's Wolbachia method

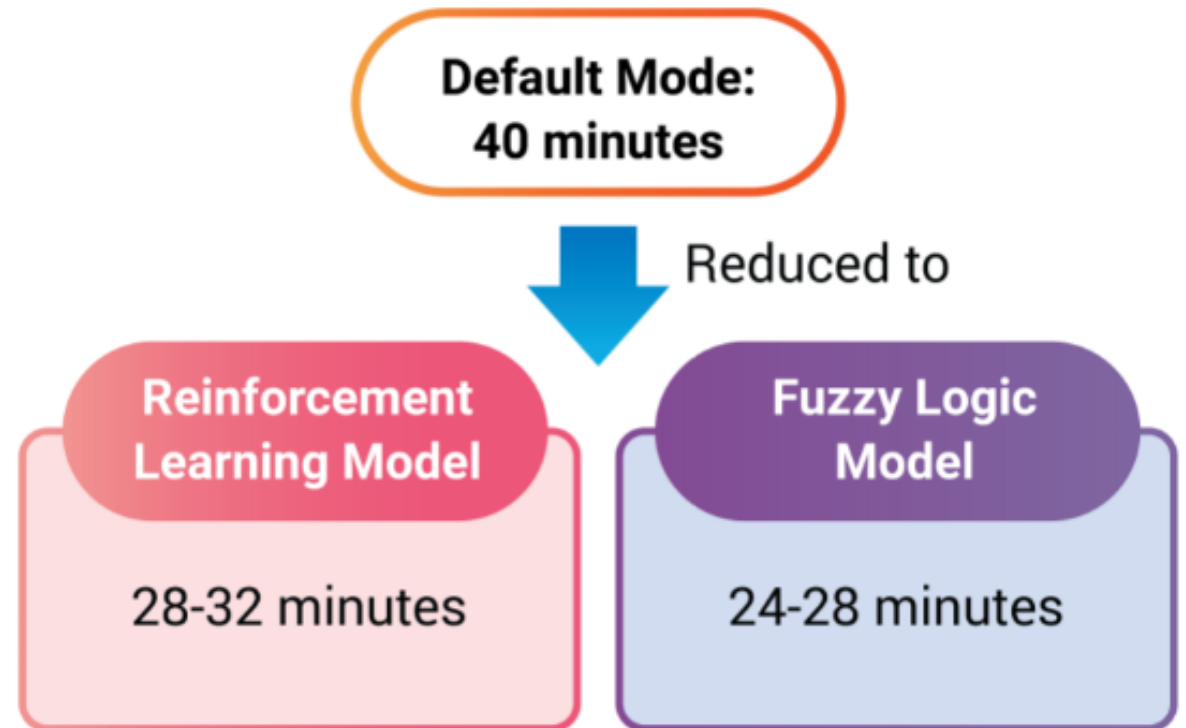

Release of either all mosquitoes or male only mosquitoes with Wolbachia

case study: AI to detect phone spam

case study: AI for machine optimization

case study: AI for Car Navigation

Vietnam to become innovation development hub

**many Vietnam tech companies adopting innovation
for higher value services**

Global innovation

Built in Vietnam

Thank you!
